

## A bilingual gem:"

Way before we went to the class we heard the ¡HOLA! CD and were thrilled by the original music, creativity and fun- It's hard to say who enjoys the music more- the kid or us?The class itself exceeded all the expectations we had from the CD. Verónica is a real pro and carefully plans each class with various activities and learning modes. The kids have fun and learn so much, each class engages kids with different activities, including music and dancing, arts and crafts, visuals and games.The kids learn Spanish- and so much more- in a creative and friendly environment. A beautiful class which is also a great educational gift for the kids."

## Best Español in town:

"Verónica has such great energy, making it fun as well as educational. My son has learned a lot about the language differences because of the great curriculum filled with music, dancing, puppet show and art. We are doing it again!"

## ¡Excelente!:

"I have searched all over town for a class/playgroup that educated in PROPER Spanish in a fun, innovative and relaxed way--- It's also very affordable! Finally I found ¡HOLA! A Playgroup in Spanish which blends a great crowd of kids and parents, an enthusiastic and well prepared teacher/instructor (Verónica) and an enriching Spanish experience all in one! My 2 1/2 yr. old loves the playgroup and has benefited from it tremendously, both socially and linguistically. I continue with the Spanish language instruction at home, and it has helped us both acquire a broader appreciation and an invaluable life skill. All but highest recommendations for Verónica the founder, who has developed such an important playgroup-class for anyone who appreciates the importance of sharing cultures, languages and parenting tips!"

## ¡HOLA! is a wonderful way to learn:

"I am so impressed with playgroup¡HOLA!; and the manner in which it is creatively put together weekly. The creativity of the Director, Verónica Braun amazes me. The music, the props and the manner in which she engages the children into playful learning is nothing less than wonderful. It is difficult to keep toddlers interested, but Verónica has found what works. The toddlers enjoy the class and learn from each class's theme. I live at the tip of the Bronx but I travel to the class because I have not found a good Spanish playgroup in my area. I hope ¡HOLA! will continue, for it is indeed a wonderful program."
